

Millenia™ LP 2 LCR On-Wall Speaker

Lifestyle 2-Channel Set-Up or Hang
with Flat Panel Displays up to 60"

Performance. Power. Design. Hallmarks of Paradigm for over 30 years and the basis for the story behind the new Millenia LP 2. Designed and engineered better than its predecessor, Millenia LP 2 makes you love your music and movies all over again. And its high-end audio performance doesn't impede on floor space. A mere 1-3/4" in profile, Millenia LP 2 surpasses anything in its category.

Millenia LP 2 is sonic and visual excellence that's perfectly suited to wall or table-top mounting (stands included). A brushed, black aluminum faceplate with brilliant chrome accents give Millenia LP 2 sophisticated appeal reminding you of the science and technology cleverly contained within.

- **NEW Tweeter design:** A sophisticated phase ring camouflaged inside the protective screen improves high frequency response. It's the details that help to deliver the defining Paradigm Sound.
- **NEW Aluminum cones:** Aluminum yields less distortion than polypropylene by moving resonance out the drivers pass band. The result is clean and clear sound – in just 1-3/4" profile.
- **NEW Aesthetics:** Perforated tweeter screen and a one-piece baffle streamline Millenia LP 2's visual appeal. The result is a speaker of epic looks ... and epic sound!

< Includes stand for tabletop use

MilleniaSub

SE Sub

Round out Performance with a Paradigm Subwoofer

No one designs and builds subwoofers like Paradigm. We offer the largest line in the industry. And while Millenia LP 2 sounds great right out-of-the-box, there's a subwoofer to perfectly complement Millenia LP 2 and your room. Consider the MilleniaSub or Seismic 110, both from Paradigm's Reference Collection, or the SE Sub from Paradigm's Classic Collection. All three offer great bass to complement your space. Ask your authorized Paradigm dealer for details.

For a more proportionate set-up to your flat panel, consider teaming Millenia LP 2 as L/R channels and Millenia LP XL as the center channel.

Finish

Gloss Black

Specifications

Design	5-driver, 2-way bass-reflex includes tweeter/midrange drivers and passive radiators.
Crossover	2nd-order electro-acoustic at 2.6 kHz
High-Frequency Driver	One 25-mm (1 in) S-PAL™ dome, ferro-fluid damped/cooled
Bass/Midrange Drivers	Two 114-mm (4-1/2 in) anodized unibody cones, 37-mm (1-1/2 in) high-temperature aluminum voice coils, Nomex spider, Nitrile-Butadiene rubber surround, Neodymium magnet, basket integrated motor heat dissipation system, tempered steel heatfin basket.
Passive Radiators	Two 114-mm (4-1/2 in) anodized unibody cones, Nitrile-Butadiene rubber surround, precision-tuned resonance system.
Low-Frequency Extension*	75 Hz (DIN)
Frequency Response:	
On-Axis	±3 dB from 120 Hz – 21 kHz
30° Off-Axis	±3 dB from 120 Hz – 15 kHz
Sensitivity – Room/Anechoic	92 dB / 89 dB
Suitable Amplifier Power Range	15 – 130 watts
Maximum Input Power†	70 watts
Impedance	Compatible with 8 ohms
Dimensions (h x w x d)	25-1/5 in x 6-1/2 in x 1-3/4 in / 64.0 cm x 16.5 cm x 4.4 cm
Weight (unpacked)	6.5 lb / 3.0 kg each
Finish	Black gloss / brushed aluminum accents

* DIN 45 500. Indicates -3 dB in a typical listening room. † With typical program source provided the amplifier clips no more than 10% of the time. LCR = Left/Center/Right. One speaker required for each channel.
